

THE
BILL HARRISON
Foundation

ABOUT THE EXCURSION EXPERIENCE

The Bill Harrison Foundation and Harrison Design are delighted to be a partner for Usher's New Look "Be Your Own Superhero," Disruptivator Summit 2023 Excursion Experience. The Bill Harrison Foundation and Harrison Design look forward to welcoming students to Harrison Design for this incredible experience. Students will have an opportunity to tour Harrison Design's new Atlanta Headquarters, engage with design professionals, and explore through fun and creative learning exercises. They will also participate in a discussion panel to develop a deeper understanding of the profession and learn what is involved on the journey to becoming an architect.

The Bill Harrison Foundation is committed to creating an equitable platform that broadens and strengthens the outreach of arts and architecture by fostering opportunities for young students to explore, create and be inspired in the field of building arts for architecture and design.

I AM AN  ARCH   EC  OF THE FUTURE

ABOUT THE FOUNDATION

The Bill Harrison Foundation wants to help curious thinkers who are interested in architecture and design. Bill Harrison started working in an architect's office at a young age and became an architect himself. He believed that everyone who is interested in architecture should have support for their passion and the Foundation is his legacy.

We want to encourage exploration, inspiration, and creativity to give all students an equal opportunity to pursue careers in the arts, architecture, and design. By doing so, we hope to make a positive impact on the architectural and design landscape and work towards a more inclusive future in these fields. The Bill Harrison Foundation achieves this through high school workshops, summer scholarships for pre-college programs, study abroad programs and ongoing education for professionals and academics.

ABOUT HARRISON DESIGN

Established in 1991, Harrison Design has seven offices across the U.S. Each location works independently while drawing on the firm's collective expertise and capabilities. Harrison Design specializes in high-end residential architecture, interior design and landscape architecture for clients throughout the U.S. and abroad. From traditional to modern, their body of work represents the full spectrum of scale and style. In addition to ground-up residential design and renovations, several studios specialize in ecclesiastic, multi-family, and hospitality projects.
